

# THIESEL 2014

## INSTRUCTIONS FOR EXTENDED ABSTRACT AND POSTER PREPARATION

### 1. Instructions for writing your abstract for the Conference Proceedings

Please read the following instructions carefully before writing and sending your final extended abstract for the THIESEL 2008 Conference.

#### Deadline

Your abstract should be submitted by 2<sup>nd</sup> July 2014 at the latest.

#### Preparation of your abstract

You will find in attachment a formatted Word document with the format we require for publication in the Proceedings. Please use this as a base for your extended abstract. In it you will find illustrations and examples of headings, figure legends, equations, etc.... We hope it will facilitate your work when writing your abstract and it will certainly facilitate ours in obtaining a uniform, clear and nice publication.

Should you have any problems with it, do not hesitate in contacting us immediately. We will do our best to provide you with a formatted version you can read and use.

**Your extended abstract should not exceed 3 pages (A4)** on the THIESEL 2014 template provided.

Please send the full camera-ready copy of the final manuscript in the two versions cited below:

- Electronic version in MS Word format or latex.
- Electronic version in pdf format: all papers will be printed in this version in the Conference Proceedings and it is therefore important that you check it thoroughly for editing errors, quality of figures, equations, legends, etc.... Please ensure that all figures are legible in black & white when you 'print' your paper from Word to pdf.

#### Additional requirements

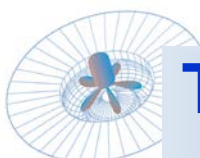

When you submit the abstract, please provide full addresses with telephone numbers and e-mail addresses of all authors, particularly the corresponding author. If possible, also let us know who the presenting author will be.

### 2. Instructions for the poster

We recommend a poster format of size A0, though you may choose to present a smaller format.

There are no specific requirements for the poster, other than clarity of the exposition. Please make sure it is readable and that the images and graphs are of good quality.

The Conference organisation will provide panels to hang your poster, which will be exposed in the main concourse outside the Conference hall.

direct injection engines**  
September 9<sup>th</sup> – 12<sup>th</sup>, 2014  
Valencia (Spain)

**A poster session will be organised** during the conference to ensure that participants take proper notice of the posters.

You may choose to bring yourself the poster, but if you prefer to send it in advance, please send it to the Conference Secretariat (address given below), between the 1<sup>st</sup> and 9<sup>th</sup> of September or prior to 28<sup>th</sup> July 2014. Please note that our University is closed for holidays in August, and that there will be no one to receive your poster during this time.

Please do not hesitate to contact us should you have any queries about the abstract and poster preparation or the Conference in general.

We look forward to receiving your abstract on time.
