

## INSTRUCTIONS FOR WRITING YOUR FINAL MANUSCRIPT FOR PUBLICATION IN THE CONFERENCE PROCEEDINGS

Dear Author

Please find enclosed a few directives to write your paper for the THIESEL 2026 Conference on Thermo-and Fluid- Dynamics for Clean Propulsion Powerplants to be held in Valencia, Spain, on 8<sup>th</sup>-11<sup>th</sup> September 2026. If finally accepted, your paper will be published in the Conference proceedings by the editorial of the Universitat Politècnica de València and will be given an ISBN. The Proceedings will be distributed to all participants in a USB, and they will be available in the university repository RiuNet.

### **Deadlines**

It is important that you keep in mind the following imperative deadline:

- **21<sup>st</sup> June 2026:** deadline for submitting your **final revised** manuscript.

**NOTE:** if your paper does not arrive on time, it may not be possible to include it in the Conference Proceedings.

### **Preparation of your paper**

If you have used the THIESEL 2026 template for your draft, just keep the same for the final paper. **However, if you have not used the THIESEL 2026 template, please make sure to use it.** It is available for download in the author's area of the conference website (<https://www.cmt.upv.es/Thiesel2026/authorsarea>).

Please note that the use of the template is a requirement for publication in the Proceedings.

The document '*THIESEL2026-template*' is in principle usable as it is. Should you have any problems with it, do not hesitate to contact us immediately. We will do our best to provide you with a formatted version you can read and use.

There are in principle no restrictions on the length of papers, though an extension of between 8 and 15 pages in A4 size on the attached template is recommended.

**NOTE: Please do NOT number the pages of your manuscript, as this will be done by the editorial.**

### ***Submission of your paper***

A complete version in “**pdf**” format, should be submitted through the author’s area website: <https://www.cmt.upv.es/Thiesel2026/authorsarea>, using the login and password already received by the contact author(s) for the draft submission.

If the contact person has changed meanwhile, or if you have lost the login information, please contact us via [secrecon@mot.upv.es](mailto:secrecon@mot.upv.es), so we may create a new login and password.

### ***Additional requirements***

When you submit your paper, please provide full addresses with telephone and e-mails of all authors, especially of the **corresponding author**. If possible, let us know at the same time who will present the paper at the Conference.

Do not hesitate in contacting us should you have any questions about the paper preparation or the Conference in general.

We look forward to receiving your paper on time.
