

## INSTRUCTIONS FOR WRITING YOUR MANUSCRIPT FOR PEER REVIEW

Dear Author

Please find enclosed a few directives to write your paper for the THIESEL 2026 Conference on Thermo-and Fluid- Dynamics for Clean Propulsion Powerplants to be held in Valencia, Spain, on 8<sup>th</sup>-11<sup>th</sup> September 2026. If finally accepted, your paper will be published in the Conference proceedings by the editorial of the Universitat Politècnica de València and will be given an ISBN. The Proceedings will be distributed to all participants in a USB, and they will be available in the university repository RiuNet.

### ***Deadlines***

It is important that you keep in mind the following imperative deadlines:

- **19<sup>th</sup> April 2026**: 1<sup>st</sup> version of paper for peer review. It should be **complete with results**, as this will be determinant for acceptance after peer review.
- **21<sup>st</sup> June 2026**: deadline for submitting your **final revised** manuscript.

### ***Preparation of your paper***

You will find a formatted Word document with the template we require for publication in the Proceedings in the author's area of the conference website (now available for download) <https://www.cmt.upv.es/Thiesel2026/authorsarea>. Please use this as a base for your manuscript. In it you will find illustrations and examples of headings, figure legends, equations, etc.... We hope it will facilitate your work when writing your paper and it will certainly facilitate ours in obtaining a uniform, clear and nice publication that will comply with the requirements of UPV's editorial.

The document '*THIESEL2026-template*' is in principle usable as it is. Should you have any problems with it, do not hesitate to contact us immediately. We will do our best to provide you with a formatted version you can read and use.

There are in principle no restrictions on the length of papers, though an extension of between 8 and 15 pages in A4 size on the attached template is recommended.

### ***Submission of your paper***

A complete electronic version in “pdf” format, should be submitted through the author’s area website: <https://www.cmt.upv.es/Thiesel2026/authorsarea>.

By **16<sup>th</sup> March 2026**, the **contact author** who submitted your abstract should have received an e-mail with a **login and password for the author’s area**. Please make sure you **keep this information**, as you will need it to submit your paper online.

**Login and password will be the same for the final paper submission.**

If the contact person has changed meanwhile, please let us know, so we may create a login and password for the new contact.

If you do not receive the login and password by 16<sup>th</sup> March 2026, please contact us by e-mail to [secrecon@mot.upv.es](mailto:secrecon@mot.upv.es).

### ***Additional requirements***

When you submit your paper, please provide full addresses with telephone and e-mails of all authors, especially of the **corresponding author**. If possible, let us know at the same time who will present the paper at the Conference.

Do not hesitate in contacting us should you have any questions about the paper preparation or the Conference in general.

We look forward to receiving your paper on time.

Dr. Xandra Margot  
Conference Coordinator
